FRESH-LOCK® Style 106 Soft Seal® Zipper Our Most Versatile Style, Now Easier to Crush

- Now available in Presto's proprietary Soft Seal® material for a high-integrity side seal using less crushing energy
- Requires less crushing time and/or temperature, allowing faster converting cycles
- Easy-to-crush material creates high-quality side seals that won't leak, gap or distort
- Features the same high-performance design as the FRESH-LOCK® Style 106 zipper
- Versatile style works with vertical or horizontal form/fill/seal equipment or pre-formed pouches
- Full-size and down-sized variations available to meet specific packaging needs
- Coextruded sealant ribs enhance sealability and compatibility to a wide variety of films
- Patented ribs allow lower sealing temperatures and faster line speeds and improved seal integrity minimizes leakage
- Lower sealing temperatures reduce film distortion for improved package appearance
- Holding force in full-sized version is among the strongest of any FRESH-LOCK® zipper for maximum security
- Single-zipper channel snaps securely for tight seal

Locked and Loaded, and offering improved package quality

Our most versatile zipper, Style 106 works superbly on vertical or horizontal form/fill/seal equipment as well as pre-formed pouches. Featuring patented sealant ribs, Style 106 not only seals at lower temperatures for faster line speeds but also seals to thinner films and reduces leaker rates. The superior holding force of the full-size version helps to prevent your package from opening under pressure. New Soft Seal® material enhances package quality.
