

Fresh Technology

FRESH-LOCK® Style 356 ME Pre-Activated Peel Seal Transverse Zipper Technology

- Style 356 ME brings FRESH-LOCK® zipper quality and performance to pre-zippered film stock
- Creates hermetically sealed zippered packaging without in-line zipper application
- Exclusively designed for the INNO-LOK® System from The Hudson-Sharp Machine Company
- Features easy, reliable open and reclose, and peelable seal for tamper evidence and barrier protection
- Applied across the film web and delivered to the packaging machine as process-ready roll stock
- Allows use of zipper technology with little or no machine modification
- Eliminates leaks or film distortion at the side seal, since zipper does not enter seal area
- Works seamlessly with vertical form/fill/seal processes
- Requires no extra set-up time or reduction in cycle rates

Performance Across the Package

Now packagers who want the convenience of a reclosable package without the requirements of in-line zipper application have a premium choice: Style 356 ME FRESH-LOCK® zipper made exclusively for the INNO-LOK® Pre-Zippered Film System from The Hudson-Sharp Machine Company.

Style 356 ME FRESH-LOCK® zipper is tested and proven to deliver top performance on the INNO-LOK® System, plus has the easy open peelable seal for tamper evidence and reclose feature consumers prefer.

ZIPPER SPECIFICATION
